Taiga generally experiences higher sales in the quarters ended June 30 and September 30 and reduced sales in the late fall and winter during its quarters ended December 31 and March 31 of each fiscal year.

5. Liquidity and Capital Resources

Revolving Credit Facility

On June 28, 2018, the Company renewed its senior credit facility with a syndicate of lenders led by JPMorgan Chase Bank (the "Facility"). The Facility was increased from \$225 million to \$250 million, with an option to increase the limit by up to \$50 million. The Facility also features an ability to draw on additional term loans in an aggregate amount of approximately \$23 million at favourable rates, which Taiga utilized for the business acquisition referred to in Note 5 of the Notes to the Audited Consolidated Financial Statements. The Facility continues to bear interest at variable rates plus variable margins, is secured by a first perfected security interest in all personal property of the Company and certain of its subsidiaries and will mature on June 28, 2023. Taiga's ability to borrow under the Facility is based upon a defined percentage of accounts receivable and inventories. The terms, conditions, and covenants of the Facility have been met as at June 30, 2020.

Taiga expects to meet its future cash requirements through a combination of cash generated from operations and its credit facilities. However, any severe weakening of the Canadian housing market driving reduced product demand or a significant increase in bad debts in accounts receivable could adversely impact the Company's liquidity in the short term.

Working Capital

Working capital as at June 30, 2020 increased to \$131.7 million from \$114.0 million as at December 31, 2019 due to increased accounts receivable. Taiga believes that current levels are adequate to meet its working capital requirements.

6. Critical Accounting Policies and Estimates, and Future Accounting Changes

The significant accounting policies of Taiga are described in Note 3 to the Consolidated Financial Statements for the year ended December 31, 2019.

The preparation of financial statements in conformity with IFRS requires management to make assumptions and estimates that affect the amounts reported in the financial statements and notes thereto. Financial results as determined by actual events could be different from those estimates. These estimates are described in the management’s discussion and analysis for the year ended December 31, 2019 and there have been no material changes to such policies and estimates since that time.

7. Off-Balance Sheet Arrangements

Taiga does not have off-balance sheet arrangements except for commitments under operating leases as discussed under “Commitments and Contingencies” in this Management’s Discussion and Analysis.

For a detailed description of financial instruments and their associated risks, see Note 24 to the Company’s audited consolidated financial statements for the period ended December 31, 2019.

8. Disclosure Controls and Procedures and Internal Controls over Financial Reporting

Taiga’s management is responsible for establishing and maintaining adequate disclosure controls and procedures and internal controls over financial reporting (“ICFR”) to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external reporting purposes in accordance with IFRS.

The CEO and CFO of Taiga acknowledge responsibility for the design of ICFR and confirm that there were no changes in these controls that occurred during the quarter ended June 30, 2020 which materially affected, or are reasonably likely to materially affect the Company's ICFR.

9. Outlook

Taiga's financial performance is primarily dependent on the residential construction, renovation and repairs markets. These markets are affected by the strength or weakness in the general economy and as such are influenced by interest rates and other general market indicators.

The recent outbreak of the coronavirus, also known as "COVID-19", has spread across the globe and is impacting worldwide economic activity. Conditions surrounding the coronavirus continue to rapidly evolve and government authorities have implemented emergency measures to mitigate the spread of the virus. As at the financial statement approval date, the outbreak and the related mitigation measures have had the following impacts on the Company's operations, among others: sales decline of over 30% in April. The Company's revenues recovered subsequent to this. However, the extent to which these events may impact the Company's business activities will depend on future developments, such as the ultimate geographic spread of the disease, the duration of the outbreak, travel restrictions, subsequent outbreaks, business disruptions, and the effectiveness of actions taken in Canada, the United States and other countries to contain and treat the disease. These events are highly uncertain and as such, the Company cannot determine the ultimate financial impacts at this time. However, the Company recognizes that there will be economic and financial challenges to be faced for the balance of the fiscal year.

In Canada, according to the Canada Mortgage and Housing Corporation ("CMHC") in their 2020 Housing Market Outlook Special Edition dated May 27, 2020, the Canadian housing market will see a historic recession in 2020, estimating a decline of 51-75% in the second half of the year. The Company has not seen evidence of this level of decline so far in 2020, other than the month of April as mentioned above.

In the United States, the National Association of Home Builders reported in June 2020 that housing starts are forecasted to total 1,079,000 units in the 2020 calendar year compared to 1,295,000 units in calendar year 2019.

Taiga paid the full amount of the reassessment on January 31, 2017 using proceeds provided by its two former major shareholders. The Company, and the two former major shareholders, had previously entered into agreements whereby the shareholders agreed to fully indemnify the Company from this potential liability, including related liabilities. The indemnity agreements remain in effect and would apply in the event that CRA issues further reassessments relating to the amount of taxes withheld. The Company intends to challenge the reassessment and vigorously defend its tax filings and to seek a resolution as soon as practically possible. Taiga's two former major shareholders may elect to assume any action or defense of Taiga in connection with the foregoing pursuant to the terms of the indemnity agreements with Taiga.

16. Covid-19 Pandemic

The outbreak of the coronavirus, also known as "COVID-19", has spread across the globe and is impacting worldwide economic activity. Conditions surrounding the coronavirus continue to rapidly evolve and government authorities have implemented emergency measures to mitigate the spread of the virus. As at the financial statement approval date, the outbreak and the related mitigation measures have had the following impacts on the Company's operations, among others: sales decline of over 30% for the month of April. The Company's revenues recovered subsequent to this. However, the extent to which these events may impact the Company's business activities will depend on future developments, such as the ultimate geographic spread of the disease, the duration of the outbreak, travel restrictions, subsequent outbreaks, business disruptions, and the effectiveness of actions taken in Canada and other countries to contain and treat the disease. These events are highly uncertain and as such, the Company cannot determine the ultimate financial impacts at this time. However, the Company recognizes that there will be economic and financial challenges to be faced for the balance of the fiscal year.
