ENGINEERED WOODS

Huber Engineered Woods

Huber Engineered Woods innovations meet today's building needs. ZIP System® building enclosure products streamline installation by eliminating housewrap with a built-in water-resistive barrier. Advanced stiffness, moisture resistance, and a polyurethane bond, make assemblies with AdvanTech® subflooring and subfloor adhesive so strong they're backed by a Squeak-Free Guarantee.

Zip-R Panels

For a streamlined approach to controlling water, air and thermal bridging

- ZIP System® R-sheathing provides structure plus built-in continuous foam insulation, rigid air barrier and a water-resistive barrier.
- Available in multiple insulation thicknesses, ZIP System R-sheathing is an efficient way to increase exterior R-value for projects in any climate zone.
- Now available in oversize Panels: 4' x 9' and 4' x 10'.

2019 Taiga Calgary Warehouse Sale & Social

In early August our Calgary branch hosted its first annual Warehouse Sale & Social. This event brought out customers and guests from all over southern Alberta, who then toured the facility and met all the Calgary staff! During the event there was a live bidding auction, silent auction and food & beverages to be enjoyed by all. Thank you to all the customers and vendors that supported and attended the event. We look forward to seeing you again in the future.
