A FENCE BUILT FOR CANADA, EH.

LP Elements® Performance Fencing 76 Series is the latest fencing product line extension from LP Building Solutions. The 76 Series combines the low maintenance of vinyl fencing with the durability and rich grain texture of softwoods like redwood, cedar and cypress. Featuring consistent quality, LP Elements pickets will not bend, warp or twist and are designed to stand up stronger and longer than typical softwood and vinyl alternatives. An innovation to the privacy fencing market, LP Elements fencing is the only engineered wood fencing on the market.

The 76 Series is impact resistant up to 80 KPH from everyday objects like hockey pucks, and can withstand wind gusts up to 322 KPH. The actual picket dimensions for the 76 Series are 0.375" x 5.3" x 71.875".

Finished 76 Series pickets are available in four beautiful and natural colours: Mojave Ridge, Carolina Cedar, Key Largo Surf and Portland Storm. Primed 76 Series pickets are also available and can be custom painted by the installer.
