

YOUR WORLD IS A BETTER PLACE WITHOUT IT.

YOU DON'T NEED LUCK. YOU NEED US.

taiga spotlight - TYVEK® HOMEWRAP®

A PROVEN PRODUCT THAT HELPS CONTROL AIRFLOW AND WATER, AND INCREASES ENERGY EFFICIENCY.

OPTIMIZE THE BUILDING ENVELOPE

DuPont™ Tyvek® HomeWrap® is the original house wrap, incorporating unique material science that helps keep air and water out while letting water vapour escape. As a result, it can contribute to improved building durability by helping to protect homes against damaging wind and rain that can penetrate the exterior cladding. Tyvek® HomeWrap® can also reduce home energy bills by controlling airflow and water intrusion, which helps insulate better, allowing the HVAC system to work more efficiently. It's a house wrap engineered to keep homes cool in the summer, warm in the winter, and dry all year.

Available Canada wide.
