

taiga spotlight - Evolve Stone

THE FUTURE OF STONE. NAILED IT.

Evolve Stone™ is the most innovative stone siding product to date, surpassing its predecessors in value, ease, and accessibility. Formulated from patented Evolve Material, it is the very first stone cladding that can be face nailed in the same fashion as traditional siding, reducing installation time dramatically. Like real stone, this proprietary material holds its color throughout, so it can be cut to fit on-site while maintaining the highest appearance standards.

- Most realistic stone veneer product on the market
- Easy installation — up to 10X faster when compared to the competition
- Moisture impermeable compared to competitors' products, which can hold moisture against the structure
- Extremely durable, reducing breakage during shipping and installation
- No heavy duty staging or scaffolding required
- No need for engineered tie-backs, grade beams, or stone ledges
- Installs structurally under vinyl siding guidelines

Evolve Stone has been awarded the Best in Show & Most Innovative Building Material during IBS 2022, and best new product during WRLA 2022

taiga highlight - think outdoor living

Trex Transcend® Decking

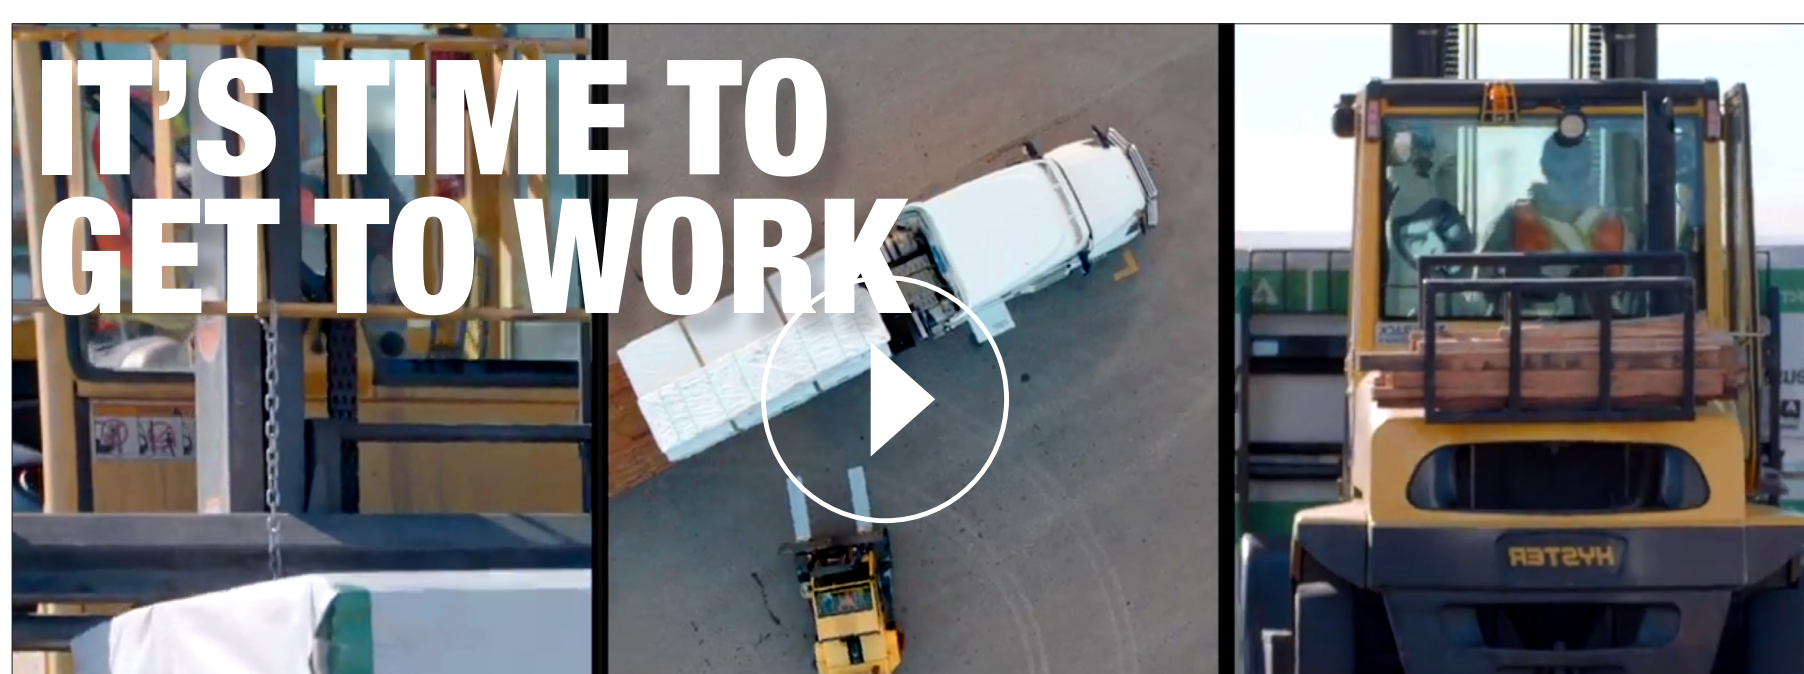

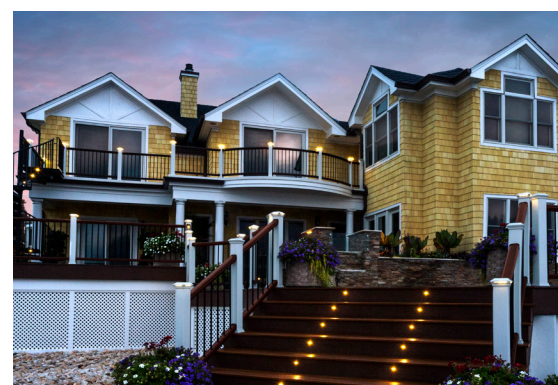

Expand your customers' living area this summer by having one of the best composite decking materials in stock.

No rotting, splintering or messy upkeep. TREX composite decking has always been the favorite for those needing to add some luxury living to their outdoor lifestyle. Its eye-catching beauty goes beyond their sophisticated and varied colour palette to engaging your customer's conscience through using 95% recycled materials. Of course this beauty is always backed with 25-year Limited Residential Warranty and a complimentary Fade & Stain warranty as well.

Remember that with every deck, there are features like rails and lighting. Order your accessories so no customer is left in the dark.
