taiga new product

GoBoard® LT.

GoBoard

GoBoard® LT, a new tile backer board from Johns Manville, is extremely durable and is 85% lighter than traditional cement boards. GoBoard LT offers built-in waterproofing, simplifying the installation process for customers. GoBoard LT offers a variety of performance benefits, aimed at reducing installation time and eliminating extra steps for installers. It is currently available in two thicknesses to provide superior performance and meet the needs of a variety of tiling projects for bathrooms, kitchens and floors.
