

taiga Whatever it takes.

taiga product spotlight

A PROVEN PRODUCT THAT HELPS CONTROL AIRFLOW, WATER AND INCREASES ENERGY EFFICIENCY.

OPTIMIZE THE BUILDING ENVELOPE

DuPont™ Tyvek®

DuPont Building Envelope systems help make buildings more durable, comfortable, and energy-efficient. These systems resist moisture and air, but are highly permeable, to reduce the risk of condensation damage, wood rot or mold growth. It is an essential line of defense against air, water and wasted energy.

DuPont has been the industry leader since it invented the building wrap category more than 40 years ago with the introduction of DuPont™ Tyvek® HomeWrap®. Today, we're working with architects, builders and installers on innovative solutions to protect the next generation of new construction, and renovation of existing buildings.

Tyvek® HomeWrap®

DuPont™ Tyvek® HomeWrap® is the original house wrap, incorporating unique material science that helps keep air and water out while letting water vapour escape. As a result, it can contribute to improved building durability by helping to protect homes against damaging wind and rain that can penetrate the exterior cladding. Tyvek® HomeWrap® can also reduce home energy bills by controlling airflow and water intrusion, which helps insulate better, allowing the HVAC system to work more efficiently. It's a house wrap engineered to keep homes cool in the summer, warm in the winter, and dry all year.

Available Canada-wide.

taiga COVID-19 update

FOR YOUR HEALTH AND OURS

Taiga continues to service our customers through these challenging times.

Our branches have been segmented into dedicated teams, each working shifts to ensure that coverage is available for your orders, while keeping staff safe by establishing back-up crews. We are happy to report that all of our employees remain healthy, and we appreciate the help and support of our customers and vendors who are thoughtfully abiding by our distancing and product-handling measures, to maintain continued health & safety at our branches and plants.

As always we are here to assist, and thank you for your partnership.
